#### SERVICES

The Coronary Care Unit provides care for patients with Acute Myocardial Infarction, High risk Acute Coronary Syndrome, Cardiogenic Shock and Arrhythmias. **The Coronary Care unit does not take direct referrals from GPs.** All cardiac patients must be referred through either the Emergency Department, Cardiologist on call, Cardiology Department or CCU Registrars. The Cardiologist on call, Cardiology & CCU Registrars can be contacted via Fremantle Hospital switchboard.

#### ANY OTHER RELEVANT INFORMATION

Fremantle CCU is a 12-bed unit capable of providing full cardiac monitoring for all CCU inpatients. It is staffed by a resident on site, 24 hours / day and by nurses with specific cardiology expertise. As beds are limited, beds are allocated to patients at greatest risk.
